Dr. Dip Biswas, MBBS

Diabetes Consultant | Healthcare Entrepreneur | Hospital Administrator

Internationally Trained Physician | Education & Business Executive | Social Impact Leader

Managing Director - Victoria Specialized Hospital & Diagnostic Center

Founder & Chairman - Victoria Social Welfare Foundation

Executive Director - IRB Education Consultancy BD Ltd.

Strategic Country Partner - Bangladesh | HealthCare Destination (THCD Private Limited, India)

Victoria Group Ecosystem | Healthcare • Social Impact • Consultancy • Green Enterprise

“Building connected institutions across healthcare, education, enterprise, social impact and international collaboration.”

PROFESSIONAL SUMMARY

Dr. Dip Biswas is a Bangladeshi physician, Diabetes Consultant, healthcare entrepreneur and institutional leader with more than eight years of clinical experience in diabetes care and chronic disease management. His professional work brings together clinical medicine, hospital leadership, community health, international education, business consultancy, social welfare and sustainable enterprise.

As Managing Director of Victoria Specialized Hospital & Diagnostic Center, he is directly involved in strategic planning, hospital administration, service development, quality improvement, consultant networking and institutional growth. The hospital represents the core of his healthcare leadership platform and supports his broader vision of building accessible, quality-focused medical services outside major metropolitan centers.

His international professional development includes training in Diabetic Retinopathy Screening and Tele-Ophthalmology at University Hospital Bonn (UKB), Germany, and participation in international diabetes and endocrinology programs including Singapore. His work with ORCD Bangladesh extends this experience into community screening, referral pathways and international collaboration.

Beyond clinical healthcare, Dr. Biswas leads an expanding Victoria Group ecosystem that brings together healthcare delivery, social impact, project consultancy, sustainable agriculture and international healthcare development. He also serves as Executive Director of IRB Education Consultancy BD Ltd. and as Strategic Country Partner - Bangladesh for HealthCare Destination (THCD Private Limited, India), creating a wider network across education, medical tourism and cross-border institutional collaboration.

He also maintains an established public and social-media presence, using digital platforms to communicate on healthcare, education, entrepreneurship, community development and institutional initiatives.

Certificate Course on Cardiovascular Diseases (CCCD) | National Heart Foundation, Dhaka

Certified Training Course on ICU & CPR | Mymensingh Medical College Hospital

Management of COVID-19 | StudyPRN / Learna professional development

HEALTHCARE LEADERSHIP

Managing Director | Victoria Specialized Hospital & Diagnostic Center

Dr. Biswas combines his medical background with hands-on healthcare entrepreneurship and institutional leadership. His work includes strategic development of clinical and diagnostic services, hospital operations, quality improvement, consultant networking, community healthcare and partnership development.

Strategic Planning

Institutional direction, service expansion and sustainable growth.

Clinical & Diagnostic Development

Expansion of specialized care and diagnostic capabilities.

Consultant Networking

Building specialist networks and coordinated patient pathways.

Community Healthcare

Prevention, screening and outreach programs.

Hospital Administration

Operational oversight, people management and service coordination.

Quality Improvement

Systems, standards and service quality development.

Business Development

Partnerships, investment planning and healthcare market development.

International Collaboration

Global clinical and institutional partnerships.

COMMUNITY HEALTH & SOCIAL IMPACT

A central part of Dr. Biswas's broader vision is to combine institution-based healthcare with community access, prevention, screening, referral and social support. His clinical work in diabetes and diabetic retinopathy aligns naturally with this community-health approach.

Victoria Social Welfare Foundation

As Founder & Chairman, Dr. Biswas is developing Victoria Social Welfare Foundation as a structured social-impact platform focused on healthcare access, patient support, education support, community screening, eye/vision services, emergency assistance and partnership-based welfare programs.

- Community health screening and early risk identification
- Digital health registration and family health-card concepts
- Diabetes and diabetic eye screening
- Referral, telemedicine and specialist linkage
- Patient support and dignity-focused assistance
- Education support, scholarships and youth development
- Partnerships with hospitals, NGOs, donors and institutions
- Transparent, measurable and scalable social-impact programs

FOUNDATION FLAGSHIP VISION

Primary Healthcare, Screening & Digital Health Access

A key emerging initiative of Victoria Social Welfare Foundation is a household-level primary healthcare, screening and referral model designed around trained Health Assistants, family registration, digital family health cards, risk identification, telemedicine/specialist linkage and structured follow-up.

Community Access Bring basic screening and health guidance closer to families.	Digital Registration Create organized family-level health records and continuity.
Risk Identification Detect diabetes, hypertension, pregnancy/child health risks and other priority conditions early.	Referral Network Connect higher-risk patients to appropriate hospitals, specialists and services.
Eye Health Integrate diabetic retinopathy and vision screening into chronic-disease care.	Data for Planning Build a practical community-health database for monitoring and program improvement.

Strategic aim: build a scalable model that connects community-level prevention with hospital-based treatment and referral, creating a continuum from household screening to specialist care.

Integrated Patient-care Pathway

Family Registration > Screening > Risk Identification > Referral > Treatment Linkage > Follow-up

INTERNATIONAL EDUCATION & BUSINESS LEADERSHIP

Executive Director | IRB Education Consultancy BD Ltd.

In addition to healthcare leadership, Dr. Biswas is involved in international education consultancy and cross-border institutional development. His role focuses on the strategic development of IRB's Bangladesh operations and strengthening educational collaboration between Bangladesh, Malaysia and other international study destinations.

Strategic Business Development

Development of sustainable education consultancy operations and partnerships.

Bangladesh Market Development

Structured growth, brand positioning and partner development.

Partner & Agent Network

Training, coordination and performance-oriented network development.

Institutional Networking

University, college and education-provider relationships.

Student Consultancy Strategy

Counselling standards, program matching and service development.

Bangladesh-Malaysia Coordination

Cross-border institutional, operational and business collaboration.

The flyer is a promotional document for the University of Cyberjaya (UOC). It features a large image of the university's modern building with the UOC logo prominently displayed. The text 'STUDY AT UOC' is written in large, bold letters, followed by 'SHAPE YOUR FUTURE WITH US!'. Below this, it states 'MALAYSIA'S LEADING TECHNOLOGY-DRIVEN UNIVERSITY' and describes the university's focus on industry-focused education and innovative learning. The flyer also includes a 'RANKED TOP Cyberjaya University' badge with a '5-STAR EXCELLENT RATING' and a 'Your Future Our Mission' slogan. A list of programs is provided, including Business & Management, Information Technology, Engineering, Computing, Cyber Security, Data Science & AI, Psychology, Media & Communication, and Early Childhood Education. It highlights 'OUR PROGRAMMES' and lists various benefits such as 'INDUSTRY FOCUSED EDUCATION', 'STRONG INDUSTRY CONNECTIONS', 'GLOBAL EXPOSURE', 'AFFORDABLE TUITION FEES', and 'MODERN CAMPUS'. It also mentions 'SCHOLARSHIPS AVAILABLE' with a '30% TUITION FEE WAIVER' and 'WHY CHOOSE UOC?' with several bullet points. The flyer is accredited by MQA and JPT, and is recognized by the Ministry of Education in Malaysia. It includes contact information for IRB Study Abroad BD, including a phone number (01901 047 609), website (www.irbstudyabroad.com), and address (Motijheel, Dhaka-1000, Bangladesh). The bottom right corner features the slogan 'LET US HELP YOU ACHIEVE YOUR DREAM!'.

VICTORIA GROUP - CONSULTANCY, PROJECT DEVELOPMENT & GREEN ENTERPRISE

Victoria Consultancy Agency

Victoria Green Agro

VICTORIA CONSULTANCY AGENCY - CONSULTANCY & PROJECT DEVELOPMENT

Victoria Consultancy Agency is a sister concern within the Victoria Group ecosystem, positioned as a multi-sector consultancy, project-development and business facilitation platform. Its scope includes healthcare, infrastructure, institutional procurement, private investment, public-sector opportunities and public-private partnership (PPP) projects, with an emphasis on professional coordination, transparent processes, credible networks and long-term project value.

- Project development and business consultancy
- Private, public and PPP project coordination
- Healthcare project consultancy and service planning
- Procurement, supply-chain and institutional sourcing support
- Tender and contractor coordination within lawful and transparent frameworks
- Investment and partnership facilitation
- Business development and market-entry support
- International liaison and cross-border project coordination

VICTORIA GREEN AGRO - AGRICULTURE & SUSTAINABLE ENTERPRISE

Victoria Green Agro is the agriculture, fisheries and sustainable-enterprise sister concern of Victoria Group. It is being developed as a modern farm-to-market platform built around responsible production, quality, sustainability and commercial discipline, with scope to expand from primary production into processing, packaging, distribution and branded agro-food products.

- Organic and safe farming with responsible input use, soil health and quality control
- Fisheries and aquaculture with water-quality, feeding, biosecurity and stock management
- Sustainable agriculture and resource-efficient production practices
- Agro production, grading, packaging, distribution and institutional supply
- Future value addition through processing, cold-chain, branded food products and market partnerships
- Rural employment, farmer linkage and responsible community enterprise development

STRATEGIC COUNTRY PARTNERSHIP & HEALTHCARE DESTINATION

Dr. Biswas is formally appointed Strategic Country Partner - Bangladesh for HealthCare Destination (THCD Private Limited, India). The partnership authorizes him to represent and develop HealthCare Destination’s professional and patient-referral network in Bangladesh, linking patients, physicians, hospitals, diagnostic centres, corporate organizations and other healthcare stakeholders with structured international treatment coordination.

- Represent HealthCare Destination in Bangladesh and guide patients regarding treatment options in India
- Connect patients for medical evaluation, second opinions, hospital selection, treatment planning and cost estimates
- Develop professional relationships with physicians, hospitals, diagnostic centres, corporate organizations and healthcare stakeholders
- Coordinate with the HCD team for medical opinions, treatment plans, appointments, scheduling and patient assistance
- Support initial counselling, medical documentation, travel guidance, pre-treatment coordination and post-treatment follow-up
- Build HealthCare Destination’s long-term Bangladesh network and support a transparent, coordinated medical-tourism pathway

HealthCare Destination

Strategic Country Partner - Bangladesh for THCD Private Limited, India, with responsibility for network and patient-pathway development.

Website Service Scope

Medical tourism support including consultations, hospital admission coordination, visa/documentation, travel and accommodation assistance.

Bangladesh Coordination

Victoria Hospital infrastructure may support coordination subject to mutually agreed branding, operational and regulatory requirements.

Germany Collaboration

Clinical learning and collaboration around diabetic retinopathy screening and tele-ophthalmology.

Patient Navigation

Hospital/doctor selection, second opinions, treatment planning, cost estimates, scheduling and continuity.

Healthcare Corridor

Long-term goal: a sustainable Bangladesh-to-international healthcare ecosystem beyond individual referrals.

PUBLIC ENGAGEMENT, COMMUNICATION & INFLUENCE

Dr. Biswas has built an established audience through Facebook and other digital platforms. He uses this reach as a communication asset for healthcare awareness, institutional branding, education opportunities, social initiatives, entrepreneurship and community engagement.

Health Communication Diabetes awareness, prevention, screening and patient education.	Institutional Visibility Communication for Victoria Hospital, Foundation and related initiatives.
Education Outreach Student and parent engagement around international education opportunities.	Entrepreneurship Sharing development initiatives, partnerships and business opportunities.
Community Mobilization Supporting camps, welfare programs and local engagement.	Reputation & Trust A public-facing professional identity that connects clinical, institutional and social roles.

This public platform is strategically relevant because it allows new healthcare, education, social-impact and enterprise initiatives to reach stakeholders directly, while strengthening transparency, brand recognition and community trust.

VICTORIA GROUP | SISTER CONCERNS & STRATEGIC ECOSYSTEM

The Victoria-branded institutions are presented as one connected Victoria Group ecosystem, with each sister concern serving a distinct function while sharing a common focus on quality, trust, sustainable growth and community value. External executive roles and strategic partnerships are shown separately so the profile remains institutionally clear and credible.

Victoria Specialized Hospital & Diagnostic Center

Healthcare delivery, diagnostics, specialist services and institutional growth. Managing Director: Dr. Dip Biswas.

Victoria Consultancy Agency
